I want to thank Mrs. Jackson for all her years of dedicated service to the state. Wishing her a happy and healthy retirement, to enjoy with her family. While not having to deal the alarm going off every morning. I'm sure that she now knows the light at the end of the tunnel, isn't an oncoming train.

We had speculated that she probably had intended to stick it out for another 36 months, with the passage of SB46, where she could have had her salary increased to beef up her retirement amount. But alas, the best laid plans never fully materialize.

If its of any comfort to you, your successor will be under the same microscope as you have. If they decide to revive another version of SB46, we will treat her like we did you, we aren't discriminatory.

Here's the bright side, you might have only one more presentation for the quarter ending in June, to appear and have to deal with any potential comments.

We will always remember you fondly, for the highly efficient use of tax payer's money, from the grant, regarding call before you dig, that resulted in these highly necessary 'hard hats', for kids who have no concept of what it means.

Enjoy your retirement.
